MEMORANDUM FOR THE CHIEF OF STAFF

SUBJECT: Comments Contained in Detailed Studies of the Eberstadt Committee

1. Attached hereto is a tabulation of comments taken from the detailed studies of the Eberstadt Committee which are contained in Volumes II and III of the Committee's report. The comments are arranged by tabs in the same order as the chapters in those Volumes. Each tab shows the chapter number and subject heading.

2. Volume and page references are inserted at the end of each comment. Where applicable, cross references between critical and favorable comments have been inserted.

3. It will be noted that only a small proportion of the comments mention the Army specifically. It is probable that several of those expressed in general terms are also applicable to the Army. An attempt has been made, however, to extract all comments, favorable and critical, regardless of the department or agency to which applicable. Corrective action in many cases is beyond the capabilities of the Department of the Army.

4. This tabulation is classified CONFIDENTIAL since the material is taken from those Volumes of the report which are still so classified.

ARMY review(s) completed.
